

Folding Instructions

Length: 12.5 to 13 cm (4 7/8 to 5 1/8 inch)

Cut a slit 1 cm (3/8 inch) in from each end.

3 strips

To make the frame, join at the slits.

In this order and shape:

The construction is more stable with a 12.5 cm (4 7/8 inch) long strip of paper. But for the moment, try to use 13 cm (5 1/8 inch) strips which make it easier to assemble.

An "A" element.

Make 6.

In the numbered order shown above, put each of the 6A elements into the frame you made in Steps 2 to 4.
